

Innovation Club, An MHRD initiative, inaugurated at Govt College of Engg Nagpur

Hon'ble prime minister of India has declared decade 2010-20 as an Innovation Decade. In line with this, with the initiation of MHRD Govt of India and AICTE, New Delhi the innovation club is inaugurated at Govt College of Engg Nagpur on 18.9.2018. The Innovation club has objective to develop a mechanism to nurture, promote and support innovation activities and convert ideas to new or improved products, processes and services. Innovations and inventions need to be taken into market place by translating scientific knowledge into products and services and offering economic and social development. The club is coordinated by a team of faculty members Dr Kshitija Kadam, Dr Latesh Bhagat and Dr Jasmir Randhawa.

The club is inaugurated by the Phunsukh Wangdu of Vidarbha, Er Ajinkya Kottawar, Founder President of Gyan foundation, Director (R&D) SoftsenseTechnoserve (india) Pvt Ltd and CEO Technolegal services, Nagpur. He addressed a gathering of about 150 students, deans and Heads of departments and faculty members. He delivered a talk on 'Need of innovation'. While sharing his experience, Mr Kottawar said, "if you could find a problem, You will definitely find its solution." So there is need to look into the problems in our surrounding and innovate the solutions. The program started with preamble by Dr Kshitija Kadam, Dean R&D. Principal Dr M B Kumthekar inspired students to actively participate in innovation club activities for better tomorrow. An enthusiastic team of 25 students from different engineering streams will work cohesively to build an ecosystem of innovation in the institution.
